Full Stack Developer

At Soma Employment Solutions, we connect top talent with high-growth companies to foster innovation and drive success. We are currently recruiting for a dynamic Full Stack Developer position for a leading technology firm based in Minneapolis, MN. This company is at the forefront of developing cutting-edge solutions and is looking for a skilled developer to join their team and contribute to their ongoing projects.

Description

As a Full Stack Developer, you will be responsible for developing and maintaining the front-end and back-end components of web applications. You will work closely with our project managers, UX/UI designers, and other developers to deliver high-quality software solutions that meet the needs of our clients.

Responsibilities

- Design, develop, and maintain responsive web applications using a variety of programming languages and frameworks such as JavaScript, React, Node.js, and Python.
- Collaborate with UI/UX designers to translate design visions into functional web applications.
- Integrate user-facing elements with server-side logic and functionality.
- Optimize applications for maximum speed and scalability.
- Implement security and data protection measures.
- Write clean, maintainable, and efficient code.
- Participate in code reviews and contribute to team knowledge sharing.
- Troubleshoot, debug, and upgrade existing software.
- Stay informed about emerging trends and technologies in web development.

Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proven experience as a Full Stack Developer or similar role.
- Proficient understanding of front-end technologies, including HTML5, CSS3, JavaScript, and frameworks/libraries like React or Angular.
- Experience with server-side languages such as Node.js, Python, Ruby, or Java.
- Familiarity with database technology such as MySQL, MongoDB, and PostgreSQL.
- Strong understanding of RESTful APIs and experience integrating third-party services.
- Knowledge of version control tools, such as Git.
- Excellent problem-solving skills and ability to work in a team environment.
- Strong communication skills and attention to detail.
